

Tran Cat 210V & 180V

The ultimate shallow water running and jump up boat with the smoothest and driest ride available. The only thing shallower is an airboat. Test ride a Tran Cat and see for yourself. Wide beam makes shallow draft and unmatched stability. Ample storage in three forward and three aft storage compartments.

STANDARD FEATURES

self bailing deck, three 10" foam filled stringers, windshield, running lights (USCG), stainless steel hand rail, cooler holders, and steering wheel, 2 ice chest (coolers), cleats, rod holders, bow storage, aluminum tandem trailer with torsion axles
